OVERVIEW OF APPLYING TO STUDY AT UWC FOR 2017

Admissions are very competitive and you should have achieved (or be on track to achieve) at least the minimum criteria to apply

1

Preparation – Know what to Study?

Browse our programmes to see if UWC offers a programme you're interested in. Check the admissions requirements to make sure you will qualify for the programme. Do the PACE programme online and identify the careers you are best suited for

2

Getting ready to apply

Make sure you have the following documentation and information with you before you start your online application: ID/Passport number, valid e-mail address, cell number, home address, school address, contact details of your parent/guardian. Please make sure your email and cell number is entered correctly.

3

Starting your online application

Start your application by going to the online application portal and creating a new application. If you are a current matriculant you must select "Undergraduate Programme". Make sure your email address and cell number are correct as UWC will communicate with you via these two methods. Once you have completed the online form click "ACCEPT" to complete your application. For possible placement in University Residence complete section 3

4

Completing your application

You will receive an acknowledgement letter via email confirming your application submission. Carefully read the acknowledgement letter. Keep your Application Number safe as you will need to use to check on your application status or if you wish to update your details. For enquiries or assistance call our Contact Centre at 021 959 3900/01.

5

What next?

The University will contact you by the end of October to inform you if you have been PROVISIONALLY selected or not. Note this is only a provisional selection and does not guarantee you a place for study in 2017. A final selection will take place in January 2017 for all applicants (provisionally selected or not) once matric results are released in 2017.
