5. MOTIVATION

Ms Sibongile Nhlabathi (“Sibongile”) is an astute, dedicated and energetic business woman with a great sense of purpose. She is an activist of note when it comes to issues pertaining to education and community development. Since her young days at UWC where she graduated with an Honours degree in Psychology, she has not looked back and has gone on to obtain her Masters in Management from the University of Witwatersrand – School of Governance, amongst her many other qualifications.

We believe she possesses the relevant knowledge, skills and business acumen to help steer the university in the right direction. She displays a high degree of commitment in any undertaking that she is a part of. Most notably, she has an unquenchable thirst for the pursuit of knowledge and sees it as a catalyst for positive societal change. Sibongile is currently working in the Education Sector for the ETDPSETA, where she constantly engages with the Higher Education institutions, Department of Basic Education and the Department of Higher Education Training and Technology in mapping strategies on how to open up Post School Education and training opportunities for the improvement of our communities.

With this background in mind, we strongly believe that Sibongile is best suited to serve on the university Council and her contribution will be invaluable in assisting with steering UWC to occupy its rightful place at the top of the Education Sector in the continent and the world at large.
