

Zero-rated policies in relation to the iKamva platform

The CIECT team has tested zero-rated policies in relation to the iKamva platform. Below is a table depicting data requirements for specific Service Providers.

	Login	Navigate & View content	Download content	Upload content	Create an assessment	Complete & submit assessment	View Turnitin Report	Accessing YouTube embedded content
Vodacom	Requires data	Requires data	Requires data	Requires data	Requires data	Requires data	Requires data	Requires data
MTN	No data required	No data required	No data required	No data required	No data required	No data required	Requires data	Requires data
Telkom	No data required	No data required	No data required	No data required	No data required	No data required	Requires data	Requires data
CellC	Testing in process	Testing in process	Testing in process	Testing in process	Testing in process	Testing in process	Testing in process	Testing in process

Notes:

1. The student and lecturer - **still requires a stable internet connection.**
2. To-date, **only Telkom and MTN are zero-rated.** Students will not be charged when they engage within the iKamva platform. However please note costs incurred for YouTube videos and other external content.
3. **Vodacom (tests to-date, 1 April 2020):** A student/user would require data on their device in order to log-in; and interact within the iKamva platform.
 - Downloading and uploading content; creating and completing assessment tasks; and participating in a discussion forum.
4. The ICS Department will send out notification regarding Zero-rated policies and specific Service Providers (once they are able to confirm with Vodacom and Cell C).
